GENESIS SERIES

Genesis Series Guitar Stands with Locking Legs
That Fold Up for Easy Transport and Storage

The first series of guitar stands that deliver true innovation and musician-helpful features, the Genesis Series from Ultimate Support all offer a patented leg-locking system for stability, protective padding that won't inherently damage the finish on your guitar, and fold down into compact go-anywhere units. Whether you're looking for a quality stand for your acoustic, electric, or bass guitar, there's a Genesis Series stand from Ultimate Support for you!

Customer Quote:
"I've recently purchased my second set of Ultimate stands & hope to have a third set soon!"
Brian B., NY

Weight-sensing yoke automatically closes to securely cradle your guitar.

Quickly and easily adjust height to support guitars of all sizes.

Legs lock in place when standing or transporting (a mere 3.5"x21" when folded).

GS-1000

Height-adjustable Guitar Stand with Self-closing Yoke, Patented Locking Leg System, and Strategically Placed Protective Padding

Hanging-style yoke and safety strap secures your guitar. Pick storage slots included.

Quickly and easily adjust height to support guitars of all sizes.

Legs lock in place when standing or transporting (a mere 3.5"x21" when folded).

GS-100

Height-adjustable Guitar Stand with Hanging Style Yoke, Patented Locking Leg System, and Strategically Placed Protective Padding

Hanging-style yoke and safety strap secures your guitar. Pick storage slots included.

Legs lock in place when standing or transporting (a mere 3.5"x21" when folded).

GS-200

Cradle Style Guitar Stand with Secure Yoke, Patented Locking Leg System, and Strategically Placed Protective Padding

Keep extra picks close by with the guitar pick storage slots.

Stable A-Frame design for use with acoustic or electric guitars.

Legs lock in place when standing or transporting (a mere 3.5"x14" when folded).

GS-55

Compact, Portable Guitar Stand with Patented Locking Leg System, and Strategically Placed Protective Padding

Friendly To Your Guitar's Finish

Did you know that most expensive guitars use a nitrocellulose lacquer finish that requires special care? Because of the sensitivity of these finishes, our protective padding is a quality material surface that offers increased protection over standard surgical tubing, rubber, or foam found on other guitar stands (a high quality case is recommended for long-term storage).

Compact and Portable

All four GS Series guitar stands are incredibly compact and ready to follow you anywhere your next gig takes you. There are no parts to loose, because each stand is just one piece. The GS-1000, GS-100, and GS-200 all fold up into an extremely compact 3.5"x21" size while the GS-55 is even shorter at just 3.5"x14".

Patented Leg Locking System

Genesis Series guitar stands feature a unique, patented leg-locking mechanism. When setting up the stand, unlock and unfold the legs then lock in place for worry-free stability and strength. When finished with the gig, unlock the legs, fold, and lock for easy, compact portability. The ingenious leg lock eliminates "floppy leg" syndrome.

Secure Stands for Your Guitars

Everything from the way your guitar hangs or stands to the patented locking leg system of the Genesis Series has been scrutinized to ensure your guitar's safety. Even the standing angle of each stand has been precisely measured to ensure maximum security.
