

Nucleus-Z Navigator LED Lighting Kit NUC-Z-LED-S

Set the mood in your studio or workspace with this full featured LED lighting kit designed for the Nucleus-Z workstation. The included wireless remote control gives you access to a wide variety of colors as well as four different transition modes. This two piece lighting kit has been specially designed to fit in the built in channels of your Nucleus-Z desk without leaving excess cable cluttering your studio.

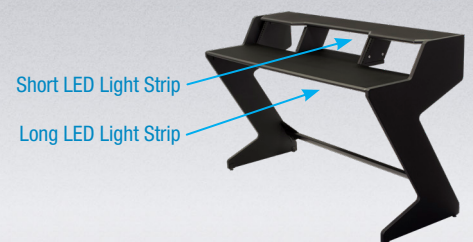

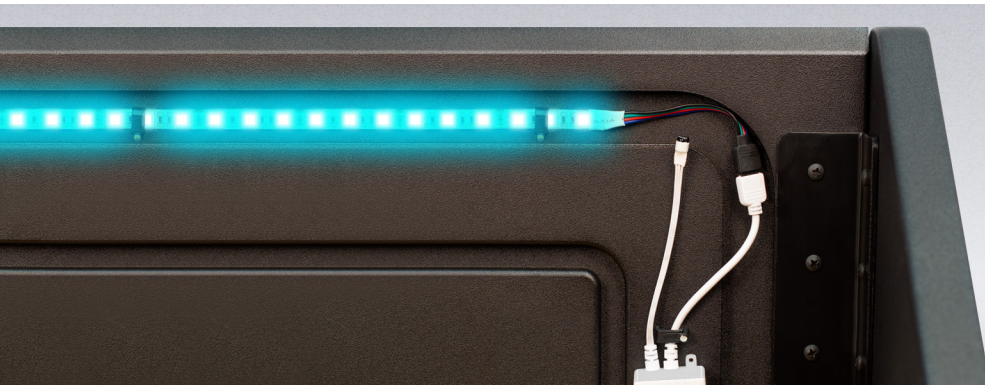

Wireless Remote Control

Control colors and transitions with the included wireless remote. The versatile RGB color metric gives you a variety of options for setting the mood.

Two tiers of LED lighting

The two included lighting strips have been sized to illuminate the area beneath both tiers in your nucleus-z series workstation.

Complete LED Set

This kit comes with everything you will need to install and use the LED lighting effects on your nucleus-z series studio desk.
